

Elgato's Stream Deck Becomes First Zoom Certified Personal Productivity Device

June 11, 2025

MILPITAS, Calif.--(BUSINESS WIRE)--Jun. 11, 2025-- Elgato, a CORSAIR® brand, today announced its highly popular Stream Deck has become the first Zoom Certified Personal Productivity Device, a new category of the Zoom Hardware Certification Program. Devices in this category use new Zoom technology that allows certified third-party hardware to establish a two-way connection with the Zoom Workplace app on PC and Mac. This important designation highlights Stream Deck's position as the premier workflow controller for online communication. [An enhanced Zoom plugin](#) allows users to effortlessly manage meeting controls with streamlined tools to enhance their Zoom video calls and presentations.

Elgato, a CORSAIR® brand, today announced its highly popular Stream Deck has become the first Zoom Certified Personal Productivity Device, a new category of the Zoom Hardware Certification Program. Devices in this category use new Zoom technology that allows certified third-party hardware to establish a two-way connection with the Zoom Workplace app on PC and Mac. This important designation highlights Stream Deck's position as the premier workflow controller for online communication. An enhanced Zoom plugin allows users to effortlessly manage meeting controls with streamlined tools to enhance their Zoom video calls and presentations.

"I'm so excited to be officially introducing Stream Deck as the first Personal Productivity Device in the Zoom Certified hardware ecosystem," adds Andy Carluccio, Head of Client Innovation at Zoom. "Compared to traditional keyboard shortcuts, which can be easy to lose track of, Stream Deck offers a much easier pathway to modify Zoom controls and settings at the press of a key. Thanks to our new technology for deepening hardware

integrations, Zoom Workplace can leverage the visual capabilities of Stream Deck to implement reliable state synchronization and contextual feedback directly on the device. This technology makes it easier than ever to collaborate on the Zoom platform with powerful devices like Stream Deck, and we're grateful to Elgato for pioneering these new capabilities with us."

"The Elgato Stream Deck, a game-changer for gamers and creators with its customizable one-touch control, has become one of the most compelling productivity tools for professionals, offering customizable one-touch control that simplifies complex workflows and enhances productivity," said Thi La, President and future Chief Executive Officer of Corsair as of July 1, 2025. "Through our strategic partnership with Zoom, Stream Deck becomes even more essential for the modern workplace. The dedicated Zoom plugin transforms the video conferencing experience by enabling instant access to key controls such as mute, video, and screen sharing, eliminating the need to fumble through menus during meetings. By combining Zoom's global collaboration platform with our expansive user base, this partnership delivers immediate value to current customers and paves the way for broader adoption among professionals worldwide."

The Zoom plugin is can be downloaded from Elgato's Marketplace, along with thousands of other apps and digital assets. Available for both PC and Mac, the Zoom plugin brings meeting controls right to the user's fingertips. Whether unmuting a microphone, turning on a camera, or starting a screen share or recording, essential Zoom actions are now just a touch away. Attendees can raise their hand or drop an emoji reaction without missing a beat. Dynamic key icons clearly show the status of microphones and cameras, ensuring no awkward surprises. What's more, Elgato plans to introduce even more actions in future updates, further expanding control.

Setup is incredibly simple—with Stream Deck software, all it takes is a drag and drop.
