

Corsair's Elgato Launches Must-Have Game Capture Solution to Meet Demand Surge

July 22, 2025

MILPITAS, Calif.--(BUSINESS WIRE)--Jul. 22, 2025-- CORSAIR® (Nasdaq: CRSR) subsidiary Elgato, a global leader in content creator technology, today launched Game Capture 4K S, a must-have external capture solution, perfect for game streaming through Mac, PC, Playstation, Nintendo's Switch 2, and XBOX platforms, and positioned to meet the surge in demand from streamers and content creators seeking to turn gameplay into high-quality content for popular streaming platforms Twitch, YouTube, TikTok, and more.

This press release features multimedia. View the full release here: <https://www.businesswire.com/news/home/20250722354173/en/>

Thi La, Chief Executive Officer of Corsair, said, "Our new 4K S is a game-changer for both professional and aspiring content creators. With cinematic 4K60 capture, ultra-low latency preview, and support for high frame rates up to 1080p240, it delivers the performance and visual fidelity today's gamers and streamers demand. Its plug-and-play compatibility across Windows, macOS, and iPadOS, along with seamless integration with OBS, Streamlabs, and TikTok Live Studio, makes it one of the most versatile capture solutions available. We're proud to launch this breakthrough product as we continue to execute on our commitment to innovation, creator empowerment, and long-term growth."

Offering exciting new features and enhancements, Elgato's Game Capture 4K S builds on Elgato's bestselling capture card HD60 X, and the company's history of innovation, including setting the standard with the launch of the market's first capture card specifically for gamers back in 2012.

Elgato's 4K S gives players a premium plug-and-play path to recording or streaming cinematic 4K60 gameplay, while

the source is docked. 4K S also continues Elgato's commitment to iPadOS compatibility, enabling creators to capture directly to iPad models with a USB-C port.

Elgato's Game Capture 4K S – Key Features and Highlights:

- **Cinematic Real-Time Capture:** Records in stunning 4K60 quality with zero-latency passthrough and ultra-low preview delay (as low as 30ms).
- **High Frame Rate Support:** Capture up to 1440p120 and 1080p240 for smooth, high-speed gameplay - perfect for competitive titles.
- **Pro Performance, Compact Design:** Features HDR10 passthrough (up to 4K60), HDR10 capture (up to 1080p60), VRR support, and analog audio input in a slim USB-C form factor.
- **Wide Compatibility:** Plug-and-play with Windows 11, macOS 13, and iPadOS 18. Fully UVC compliant for seamless use with OBS, Streamlabs, Zoom, TikTok Live Studio, and more.
- **New Elgato Studio App:** Includes low-latency preview, minimal system load, and tools like a snapshot feature for social media and thumbnail creation.
- **Availability & Pricing:** Available now for \$159.99 on the Elgato webstore. Includes a two-year warranty and CORSAIR global support.

Corsair also sells products under its Fanatec brand, the leading end-to-end premium Sim Racing product line; Elgato brand, which provides premium studio equipment and accessories for content creators; SCUF Gaming brand, which builds custom-designed controllers for competitive gamers; Drop, the leading community-driven mechanical keyboard brand; and ORIGIN PC brand, a builder of custom gaming and workstation desktop PCs.

Forward-Looking Statements

This press release contains express and implied forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including, but not limited to, statements regarding the refinancing supporting the Company's growth plan and providing it flexibility to act on growth investments. Forward-looking statements are based on our management's beliefs, as well as assumptions made by, and information currently available to them. Because such statements are based on expectations as to future financial and operating results and are not statements of fact, actual results may differ materially from those projected. Factors which may cause actual results to differ materially from current expectations include, but are not limited to: the Company's limited operating history, which makes it difficult to forecast the Company's future results of operations; current macroeconomic conditions, including the impacts of high inflation and risk of recession, on demand for our products, consumer confidence and financial markets generally; changes in trade regulations, policies, and agreements and the imposition of tariffs that affect our products or operations, including potential new tariffs that may be imposed on U.S. imports and our ability to mitigate; the Company's ability to build and maintain the strength of the Company's brand among gaming and streaming enthusiasts and ability to continuously develop and successfully market new products and improvements to existing products; the introduction and success of new third-party high-performance computer hardware, particularly graphics processing units and central processing units as well as sophisticated new video games; fluctuations in operating results; the loss or inability to attract and retain key management; the impacts from geopolitical events and unrest; delays or disruptions at the Company or third-parties' manufacturing and distribution facilities; and the other factors described under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2024 filed with the Securities and Exchange Commission ("SEC") and our subsequent filings with the SEC. All forward-looking statements reflect our beliefs and assumptions only as of the date of this press release. We undertake no obligation to update forward-looking statements to reflect future events or circumstances.
