

## **CORSAIR and 2K Partner to Bring Immersive PC Gaming Experience to Tiny Tina's Wonderlands®**

March 3, 2022

FREMONT, Calif., March 03, 2022 (GLOBE NEWSWIRE) -- CORSAIR® (NASDAQ:CRSR), a world leader in high-performance gear for gamers, today announced a partnership with world-renowned publisher 2K, bringing immersive in-game RGB lighting integration for all CORSAIR iCUE RGB devices to Gearbox Software's highly anticipated Tiny Tina's Wonderlands®. PC players with CORSAIR iCUE products can enjoy exclusive real-time lighting effects that extend the game's action across their entire iCUE setup in the upcoming spinoff of the Borderlands® franchise.

Developed by Gearbox Software and published by 2K, Tiny Tina's Wonderlands lets players create their own multiclass hero and embark on an epic adventure full of whimsy, wonder, and high-powered weaponry. Level up your party to defeat the tyrannical Dragon Lord in a chaotic fantasy world brought to life by the unpredictable Tiny Tina, your disorderly guide through an extraordinary tabletop realm where rules rarely apply. Dropping "first-person looter shooter" mayhem into a fantastical tabletop RPG setting, Tiny Tina's Wonderlands dares adventurers to be Chaotic Great.

Compatible CORSAIR hardware owners running CORSAIR iCUE software will see the creative environments and larger-than-life effects in Tiny Tina's Wonderlands spill out beyond the screen through all of their connected iCUE-compatible components and peripherals. Whether you're exploring the land looking for loot, casting devastating spells on enemies, or delving deep into dungeons, your entire iCUE ecosystem will light up, reflecting in-game events in real time.

"We're excited to partner with 2K and bring greater in-game immersion to Tiny Tina's Wonderlands," said Lauren Premo, Sr. Director of Software Services at CORSAIR. "iCUE integration makes for an incredibly engrossing gaming experience that can't be found anywhere else, and we're thrilled to enhance Tiny Tina's Wonderlands' whimsical action with it."

The Tiny Tina's Wonderlands iCUE game integration will be available March 25th, alongside the launch of the game. To celebrate the partnership with 2K, CORSAIR will host a sweepstakes for the chance to win a custom PC inspired by Tiny Tina's Wonderlands, along with a copy of the game and a set of CORSAIR peripherals. For terms and conditions of the giveaway, visit [www.corsair.com/tiny-tinas-wonderlands](http://www.corsair.com/tiny-tinas-wonderlands).
