Whether you're a casual player or an aspiring esports pro, your ambition starts with K70 CORE. (Photo: Business Wire)

K70 CORE introduces CORSAIR MLX Red linear switches, an ultra-responsive mechanical switch that offers smooth, satisfying keypresses ideally suited for keyboard enthusiasts and gamers. Factory pre-lubrication ensures that each keystroke exhibits silky-smooth travel, and switches are tightly constructed to reduce stem wobble. Along with CORSAIR OPX optical and MGX magnetic switches, CORSAIR Reds round out the lineup of original CORSAIR mechanical switches that give discerning players a trio of fantastic options.

Surrounding the switches are two layers of premium sound dampening foam, eliminating annoying pings and clacks that take you out of the game. Instead, you'll enjoy softened acoustics that make gaming sound as good as it feels.

The K70 CORE makes it easy to personalize your play. More than just a volume knob, the keyboard's multi-function rotary dial can adjust RGB brightness, scroll through webpages, and zoom. Next to the dial is a programmable button for controlling media with ease. CORSAIR iCUE software unlocks the keyboard's full power, granting you the ability to customize per-key RGB backlighting, program macros, remap keys, and more.

Beyond superior sound and feel, the K70 CORE delivers on high-caliber durability and design. CORSAIR Red switches reside in a robust aluminum top plate and topped by resilient double-shot keycaps. This bolstered construction provides you peace of mind to play freely, knowing your keyboard won't quit.

With such tremendous performance at a tidy price, the K70 CORE line empowers gamers to ambitiously play, win, and have fun.

**Availability, Warranty, and Pricing**
