Sporting a modern and sleek mouse shape for maximum comfort and control, M75 AIR puts players in position for victory, every match. (Photo: Business Wire)

With its symmetrical shape meticulously crafted from the ground up, M75 AIR ascends to the pinnacle of competitive mouse design. Through a rigorous process, every contour, outline, and button placement was diligently reworked until the optimal shape took form.

At 60g, nothing weighs the ultra-light M75 AIR down, so you can move as nimbly as possible. Anything not absolutely essential for competitive FPS play was excluded, resulting in CORSAIR's lightest gaming mouse to-date. Serious gamers will clamor to experience M75 AIR's extraordinary combination of shape and lightness firsthand.

With M75 AIR, moving and aiming is as easy as a simple flick – opponents won't know what hit them. 100% PTFE mouse feet provide an incredibly smooth glide on any playing surface, letting nothing come between you and impressive mouse sweeps and maneuvers. An ultra-precise CORSAIR MARKSMAN 26K DPI optical sensor tracks even near-imperceptible movements and micro adjustments flawlessly.

M75 AIR's superior technology gets actions from your hand to the screen in the blink of an eye. Zero-delay CORSAIR QUICKSTRIKE buttons and optical left- and right-click switches register inputs at hair-trigger speeds, transmitted lag-free over SLIPSTREAM WIRELESS or *Bluetooth*®. A long-lasting battery enables you to carry your team up to 100 hours* between charges, and with USB wired mode, you can go one more round even while your mouse is charging.

To commemorate this release, extremely limited quantities of a special M75 AIR Launch Edition will be available exclusively on the CORSAIR webstore. Garbed in stunning thunderbolt yellow, the M75 AIR Launch Edition bundle includes a limited-edition mouse pad, high-performance glass mouse skates, and grip tape.

With M75 AIR, the quickest, most powerful mouse for FPS gaming is in the palm of your hand.

*via *Bluetooth*®.
